To the City Council and CACH committee,

I am writing to oppose the proposal to put a moratorium on towing vehicles.

For many years this city has become less family-friendly and more lawless. The city has in many respects run things to accommodate the drug culture and drug addicts (aka homeless). Are we going to decriminalize ourselves out of the need for a police force? Turn the city over to habitual violators of laws and regulations who often lack common courtesy?

We know the city and our law enforcement officers are quite lenient. Still, the threat of being towed is one mechanism to encourage positive behavior.

PLEASE: DO NOT IMPOSE A MORATORIUM ON TOWING.

The people of our community deserve to be safe. We also need to be able devote less first-responder time toward repeat offenders.

It is not too much to ask for repeat offenders to give cooperation a chance!

Thank you,

Tom Powell - Westside
