Dear CACH members,

First and foremost, thank you for your service to our city. You face many obstacles in your efforts, and I appreciate your dedication to hearing from the public.

I believe law enforcement should have at their disposal, all the tools they need to serve our city. I do not believe law enforcement abuses their powers in ticketing or towing vehicles.

In my North Branciforte neighborhood, we held several meetings with law enforcement to better understand how we may work together in fostering public safety. I now understand towing is not always THE answer or the likely first response to street camping or drug dealing from vehicles in my neighborhood. I learned this from our neighborhood meetings with law enforcement.

Eliminating tools is not the answer. Please do not recommend ways to reduce the toolset.

Thank you,

Jill Wynn
Santa Cruz
