Dear City Council and CACH,

I received an email that a moratorium on towing unregistered or heavily ticketed vehicles was being considered. Along with the SCPD not being able to enforce so many laws that used to protect our city, our properties and our citizens this seems like another in a long list of BAD ideas. People don't know how to behave so we have enforceable LAWS to make it clear how a community functions in a healthy way. When the laws are stripped chaos moves in, and if you ask me we already have too much of that.

This is a SAFETY ISSUE and I shouldn't have to describe what I mean; if garbage is allowed to fester on our streets we will have a PUBLIC HEALTH issue as well. SCPD might as well pack it in if one more formerly legally enforceable law is ripped from their grasp. I find this consideration of a moratorium on towing yet another sad, misguided and potentially dangerous idea.

NO MORATIORIUM ON TOWING!

Thank you for your time,
Robin Cunningham
