Hello,

I just heard you will be meeting on this subject on 2/4/20. I will not be able to attend this meeting but I would like to make a few points that I hope you all would consider in this matter.

- There should be consequences for driving a vehicle with an expired registration. If there is not, then why should any of us pay our registration? If you don't follow the state law of having valid registration then your vehicle should be subject to tow.

- There should be consequences for not paying your parking tickets. Again, if there is not then why should any of us pay parking tickets we get? Tickets are state law and no one should be above laws - they are what keep us grounded as a society.

It is an unsafe practice to have vehicles on the road that have expired registration. We should all have accountability.

Please stop giving a pass to people breaking laws in a city that I love and am raising my family in. I would like to keep my family here but often think about other options where we can live that would be safer based on choices that the city makes.

Please, let's use programs like AFC Safe Spaces to help people instead of giving them a free pass to inundate our neighborhoods.

Thanks for you time.
