**Subject:** Oppose the moratorium on towing

I just heard that CACH is considering a moratorium on towing vehicles with expired license plates and five or more parking tickets. This will be bad for the city of Santa Cruz. While I sympathize with the homeless, no one should be allowed to break common sense laws. This could lead to all streets being junkyards and people abandoning vehicles. There are vehicles in the parking lot that are collecting parking violation tickets. This is completely unacceptable.
