**Subject:** Do Not Handcuff our police by removing RV parking/towing restrictions
**Date:** Wednesday, January 29, 2020 10:28:46 PM

---

Dear Council/Committee,

My name is Jeremy Ertl. I am a concerned citizen. I cannot believe that you are considering removing a tool that SCPD can use to ensure our communities are safe and clean. RVs cause many problems in our town. Not all, but many, of the RVs that park in our neighborhoods (and the people that are in them) cause harm to our community. They leave trash, they steal property, they dump their septic tanks in storm drains, the buy/sell drugs, etc. (All things that I have personally witnessed). I cannot believe that you would consider removing the only legal grounds that enable our police force to deal with the "bad apples" that often come with the RVs. We are already extremely lenient with our out-of-control RV situation. Please do not strip the police of a crucial tool to control the "bad actors" and ultimately make our neighborhoods less clean and less safe. This makes no sense and goes against your responsibility as a city council (or CACH) member.

Sincerely,
Jeremy
