---

CACH and City Council-

Before you lift any moratoriums on existing law, I would suggest that you offer up your own "back yard" before you offer up ours.

I would suggest that if the Faith Based Communities do not have sufficient room for overnight parking of unlawful vehicles, that you designate the parking lot at city hall for use between the hours of 6pm- 6am on weekdays, and open it up for parking Saturday and Sunday.

You may also want to request that the County give up their lot at 701 Ocean Street during these same time periods.

I expect laws to be enforced equally, regardless of social disposition
