**Subject:** Fwd: Lowering Parking Standards Should Not Be Considered

Since there is no email listed for the police chief, and this email was listed for the city manager's office on the new City of Santa Cruz website, I am requesting that you please pass this along to the police department and make sure the CASH program gets a copy of this? Thanks for your help. The CASH meeting is today.

ATTN: Meghan Bunch
please forward to CACH committee for today's meeting since email did not work (without a committee member's name) per my phone message to you

I, as a resident and property owner of my home and owning no rental properties, am entirely AGAINST any proposals that would allow overnight parking and a potential moratorium on towing vehicles with expired registrations, and not towing cars with five or more parking tickets. The laws are on the books and should be enforced. The ongoing cherry picking of laws to enforce and the lowering of standards for some but not all is

making a pigsty and areas of criminal activities of areas and proper neighborhoods with children, the elderly and normal hard working, mortgage or rent paying citizens of Santa Cruz. These proposals will further degrade neighborhoods (think Delaware on the westside), eliminate legal residents of areas to get rid of sanitary, noise, sexual predator and criminal behaviors in a neighborhood in which they have invested emotionally and financial. Vote NO as this is another bad idea.

Sincerely,

Diane Romeo
City resident/proerty owner/voter
