---

Expired vehicle tags need to be towed. The owners can park for free in a variety of spots in town but need to register their vehicles. Why have laws if 'special groups' get to ignore them? Next it will be drugs and guns. It's ok they're homeless and 'need' these thing. Totally unacceptable. There is no incentive for these folks to accept housing, get off the streets, find work, etc if we keep just letting them spread their garbage every place they stop in their unregistered vehicles. At the very minimum they should register their Vehicles or be towed just like the rest of us. Too many are taking advantage of our kind community and those of us who have lived here most of our lives have to watch our sweet town go down. It's so sad. Please say no. The law is the law.
