## **Annual Military Equipment Report**

### **2024 Report**

## **OVERVIEW**

California State Assembly Bill (AB) 481, effective January 1, 2022, establishes requirements for the funding, acquisition, and use of items deemed “military equipment” (Gov’t Code § 7070(c)) in law enforcement and state agencies. The bill’s intent installs enforceable safeguards, including transparency, accountability, and oversight to protect the public’s welfare, safety, civil rights, and civil liberties. AB 481 requires law enforcement agencies to obtain approval from their governing body via ordinance adopting a military equipment use policy prior to purchasing, raising funds for, or acquiring military equipment. Gov’t Code § 7071(a)(1).

On May 10, 2022, the City of Santa Cruz City Council adopted Santa Cruz Municipal Code Chapter 9.90, approving the military equipment use policy set forth in Santa Cruz Police Department Policy 705. Pursuant to AB 481, the Santa Cruz Police Department (“Department”) will publish an annual report for each type of military equipment approved by the Santa Cruz City Council within one year of approval and annually thereafter for as long as the military equipment is available for use. Gov’t Code § 7072(a). The annual military equipment report must include the following information for the immediately preceding calendar year for each type of military equipment:

- (1) A summary of how the military equipment was used and the purpose of its use.
- (2) A summary of any complaints or concerns received concerning the military equipment.
- (3) The results of any internal audits, information about violations of the military equipment use policy, and any actions taken in response.
- (4) The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report.
- (5) The quantity possessed for each type of military equipment.
- (6) If the law enforcement agency intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.

Within 30 days of submitting and publicly releasing the annual military equipment report, the Department will hold a well-publicized and conveniently located community engagement meeting. Gov’t Code § 7072(b). The community engagement meeting will allow the public to discuss and ask questions regarding the annual military equipment report and the law enforcement agency’s funding, acquisition, or use of military equipment.

This Annual Report provides available data for each type of military equipment approved by the Santa Cruz City Council for the 2024 calendar year (January 1, 2024 – December 31, 2024).
