INTRODUCTION

This Historic Context was developed using the "Suggested Outline for Fully Developed Context Statement" provide by the State Office of Historic Preservation. As recommended in that outline, the historic contexts for the City of Santa Cruz are as follows:

- Context I Economic Development in City of Santa Cruz—1850-1950
- Context II Residential, Commercial and Institutional Architecture in the City of Santa Cruz—1850 to 1950
- Context III Institutions in the City of Santa Cruz—1850-1950

In addition to the three contexts, the following document contains a work program for the update of the City's existing historic survey. The plan for this program is contained in the Appendix.
