ADULT SOFTBALL ILLEGAL BAT LIST

REVISED 9/4/19

Please review this list to ensure that your team is not using any of these softball bats in City Leagues. If there is a bat that you think may be illegal that is not on the list and you would like it to be reviewed, email me with the bat make & model and I will review it. Bats may be added to this list at any time during the season. If a bat is added, I will post the new updated list on the website

City of Santa Cruz Bat Ban

ANY BAT THAT IS COMPOSITE OR DOUBLE-WALLED IS ILLEGAL. Bat terminology and verbiage is changing every day. The best way to determine if a bat is legal is to call the sports office.

Listed are some key words that normally indicate that a bat is not suitable for our leagues: Multi-wall, variable wall, shell titanium/litanium alloy, carbon composites, composite handle, BPF exceeds "1.2."

Bats that are not perfectly cylindrical or that have visible dents, cracks, or burrs are illegal

Verified NON-Legal bats									
	·	terms used that indicate the bat is probably not legal.
